

Kindergarten

For Puppies under 6 mo.

We recommend at least 6 classes.

We offer two different classes, and we hope you will try them both!

- **Puppy Concepts**
 - **Help your pup learn key life concepts by playing games! These skills include confidence, grit, impulse control, calmness, focus, etc. All the things that will help your puppy learn how to make good choices!**
- **Puppy Obedience Foundations**
 - **Sit, down, wait, recall, llw, place – these are the cues most associated with beginner obedience. Combine these skills with the concepts taught in our other puppy class and you will be well on your way to a happy, well-mannered pup!**

May take the AKC STAR Puppy test if you'd like. This test requires a minimum of 6 classes.

May also take a final exam, which includes not only dog skills, but handler knowledge as well. Pass and earn a diploma and a ribbon!
